Greener Edge Ltd
Carbon Reduction Plan

Reporting period: 2025/26

Date Published: Aug 2026

1. Organisation Details

Field	Detail
Organisation Name	Greener Edge Ltd
Business Description	Sustainability Consultancy
Reporting Period	1st June 2025 – 31st May 2026
Organisational Boundary	Operational Control
Geographical Boundary	All UK based operations (Greener Edge has no global operations)
Sites Included	N/A (Greener Edge is a fully devolved organisation with no office)
Date Published	
Prepared by	Elinor Jones (Carbon Assessor) & Becks Davie-Tettmar (Carbon Assessor)
Reviewed by	Will Miller (Operations Manager)
Approved by	Stu Meades (Managing Director)
Total Emissions (Location-Based)	**33.56 tCO_2e**
Scope 1 Emissions	0.00 tCO_2e
Scope 2 Emissions (Location-Based)	0.47 tCO_2e
Scope 2 Emissions (Market-Based)	*0.00 tCO_2e*
Scope 3 Emissions	33.09 tCO_2e

2. Commitment to Achieving Net Zero

Greener Edge Ltd is committed to achieving Net Zero greenhouse gas emissions by 2045, in line with the UK Government's legally binding target under the Climate Change Act 2008 (as amended in 2019) and the Welsh Government's net zero target for Wales. This commitment encompasses all Scope 1 and Scope 2 emissions and the material Scope 3 categories identified in this Carbon Reduction Plan.

This Carbon Reduction Plan (CRP) outlines the baseline GHG emissions and current GHG emissions as well as the completed and planned reduction projects of Greener Edge. It will be reviewed and updated annually within 6-months of each reporting period end.

3. Carbon Footprint

This section presents the baseline emissions footprint and current emissions reporting of Greener Edge Ltd.

Greener Edge does not have any Scope 1 emissions as the organisation has no office and the company fleet consists of an electric vehicle (EV).

Greener Edge has improved their approach to data collection year-on-year following the 2021/22 baseline year. Enabling a more detailed picture of their carbon footprint to be developed and capturing more emissions.

3.1 Baseline Emissions Footprint

The baseline year for Greener Edge's carbon footprint reporting is 2021/22 (1st June 2021 to 31st May 2022).

GHG Emissions Source		GHG Emissions (tCO_2e)	Share of Total
Scope 1		0.00	0%
Scope 2 (location-based)		0.00	0%
Scope 2 (market-based)		*0.00*	*0%*
Scope 3*	**Total**	16.27	100%
	1. Purchased Goods and Services	*7.98*	*49%*
	4. Upstream transportation and distribution	*0.00*	*0%*
	5. Waste generated in operations	*0.00*	*0%*
	6. Business Travel	*6.61*	*41%*
	7. Employee commuting (incl. home working)	*1.69*	*10%*

	9. Downstream transportation and distribution	*0.00*	*0%*
Total emissions		**16.27 tCO_2e**	
Emissions per employee		**8.14 tCO_2e**	

*Greener Edge includes all Scope 3 categories when calculating the GHG emissions (see Appendix A). The scope 3 categories detailed in this table are the categories where Greener Edge has recorded emissions and/or that are required by PPN 006.

3.2 Current emissions reporting

The current emissions reporting period is 2025/26 (1st June 2025 to 31st May 2026).

GHG Emissions Source		GHG Emissions (tCO_2e)	Share of Total
Scope 1		0.00	0.00%
Scope 2 (location-based)		0.47	1.40%
Scope 2 (market-based)		*0.00*	*0.00%*
Scope 3*	**Total**	33.09	98.60%
	1. Purchased Goods and Services	*9.71*	*29.35%*
	2. Capital Goods	*6.36*	*19.22%*
	3. Fuel-and-Energy-Related Activities	*0.14*	*0.44%*
	4. Upstream transportation and Distribution	*0.00*	*0.00%*
	5. Waste generated in operations	*0.00*	*0.00%*
	6. Business Travel	*12.34*	*37.30%*
	7. Employee Commuting (incl. homeworking)	*4.53*	*13.70%*
	9. Downstream transportation and distribution	*0.00*	*0.00%*
Total emissions		**33.56 tCO_2e**	
Emissions per employee		**2.58 tCO_2e/employee**	

*Greener Edge includes all Scope 3 categories when calculating the GHG emissions (see Appendix A). The scope 3 categories detailed in this table are the categories where Greener Edge has recorded emissions and/or that are required by PPN 006.

4. Emission reduction targets

In order to continue our progress to achieving net zero, we have adopted the following carbon reduction targets.

- Reach net-zero by 2045.
- Halving business travel GHG emissions per employee by 2031 based on the 2021/22 baseline year.
- Ensure scope 1 and scope 2 (market-based) emissions do not increase before 2030 and beyond based on the 2022 baseline year.

It is anticipated that due to the nature of Greener Edge (a devolved organisation with the majority of GHG emissions concentrated in Scope 3) reaching net zero by 2045 will be supported by offsetting emissions.

5. Carbon reduction projects

Greener Edge are continually working to reduce the carbon footprint of the organisation having completed a range of carbon reduction initiatives since 2021/22 and are looking to introduce new carbon reduction initiatives over the next 12-months.

5.1 Completed carbon reduction initiatives

Greener Edge have implemented the following carbon reduction initiatives:

- Transition company owned vehicles to electric vehicles.
- Have a remote-first delivery model to reduce business travel and have developed a Business Travel Policy supporting employees to prioritise active travel, use of an electric vehicle and public transport where viable.
- Introduced a Homeworking Policy with guidance on sustainable practices for working from home.
- Introduced an Ethical Procurement Policy for purchasing decisions.
- Developed an environmental management system and are actively working towards achieving ISO 14001 certification.
- Halved GHG emissions per employee based on the 2021/22 baseline year.

5.2 Future carbon reduction initiatives

Greener Edge are actively working towards or planning to implement the following carbon reduction initiatives:

- Achieving ISO 14001 certification.
- Improve emissions data for purchased goods and services by asking suppliers for specific emission factors where possible.

- Improve business travel data collection to use mile and mode-based emission factors for public transport rather than spend-based emission factors.
- Join an Electric Vehicle salary sacrifice scheme to support employees in transitioning to EVs.

6. Declaration and sign off

This Carbon Reduction Plan has been completed in accordance with PPN 006 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard and uses the appropriate government emission conversion factors for greenhouse gas company reporting.

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors.

Signed on behalf of Greener Edge Ltd:

Appendix A – Emission Sources Assessed for Inclusion in this CRP

Scope	Emission Source	Status (included / excluded)	Notes
Scope 1	Stationary Combustion	Included	No business activity (GE has no premises), no data, zero emissions recorded – Included.
	Mobile Combustion	Included	No business activity (Company vehicle is electric), no data, zero emissions recorded – Included.
	Fugitive Emissions	Included	No business activity, no data, zero emissions recorded – Included.
Scope 2	Electricity (location – based)	Included	Activity occurs (relevant), data submitted, emissions recorded – Included.
	Electricity (market-based)	Included	Activity occurs (relevant), data submitted, zero emissions recorded – Included.
Scope 3	Cat 1: Purchased Goods and Services	Included	Activity occurs (relevant), data submitted, emissions recorded – Included.
	Cat 2: Capital Goods	Included	Activity occurs (relevant), data submitted, emissions recorded – Included.
	Cat 3: Fuel and Energy-Related Activities	Included	Activity occurs (relevant), data submitted, emissions recorded – Included.
	Cat 4: Upstream Transportation and Distribution	Included	No business activity, no data, zero emissions recorded – Included.
	Cat 5: Waste Generated in Operations	Included	No business activity (GE has no premises, so there's no company-controlled waste stream, and employee homeworking waste falls outside the inventory boundary), no data, zero emissions recorded – Included.
	Cat 6: Business Travel	Included	Activity occurs (relevant), data submitted, emissions recorded – Included.

	Cat 7: Employee Commuting (incl. homeworking)	Included	Activity occurs (relevant), data submitted, emissions recorded – Included.
	Cat 8. Upstream Leased Assets	Included	No business activity, no data, zero emissions recorded – Included.
	Cat 9: Downstream Transportation and Distribution	Included	No business activity, no data, zero emissions recorded – Included.
	Cat 10: Processing of Sold Products	Included	No business activity, no data, zero emissions recorded – Included.
	Cat 11: Use of Sold Products	Included	No business activity, no data, zero emissions recorded – Included.
	Cat 12: End-of-life Treatment of Sold Products	Included	No business activity, no data, zero emissions recorded – Included.
	Cat 13: Downstream Leased Assets	Included	No business activity, no data, zero emissions recorded – Included.
	Cat 14: Franchises	Included	No business activity, no data, zero emissions recorded – Included.
	Cat 15: Investments	Included	No business activity, no data, zero emissions recorded – Included.
